

+ COVID-19 TREATMENT + STUDY FOR OUTPATIENTS

DID YOU JUST GET TESTED FOR COVID-19 but are not sick enough to be hospitalized?

Are you at least 18 years old?

Would you like to try an Investigational medicine for COVID-19 treatment?

Researchers from **Palmtree Clinical Research, Inc.** are studying if Camostat, a medication in pill form, can prevent more severe COVID-19 in outpatients so people do not need to go to the hospital

You May Qualify If You

- ✓ Just received a **POSITIVE COVID-19** test result or less than 3 days ago
- ✓ Are at least 18 years old
- ✓ Do not need to be treated in the hospital right now
- ✓ Can come to the clinic to sign-up and complete 2 more visits

- ✓ **Have just one risk factor below along with a positive COVID-19 test:**
 - Are age 65 or older
 - Have diabetes mellitus (Type 1 or Type 2)
 - Have high blood pressure
 - Have chronic heart, lung, or liver disease, *or*
 - Are 35 lbs or more overweight

Participation Involves

- Taking tablets for 14 days of treatment
- Keeping a daily log of your temperature once a day
- Three (3) short clinic visits for nasal swabs and blood draws

PARTICIPANTS WILL BE COMPENSATED FOR THEIR PARTICIPATION
